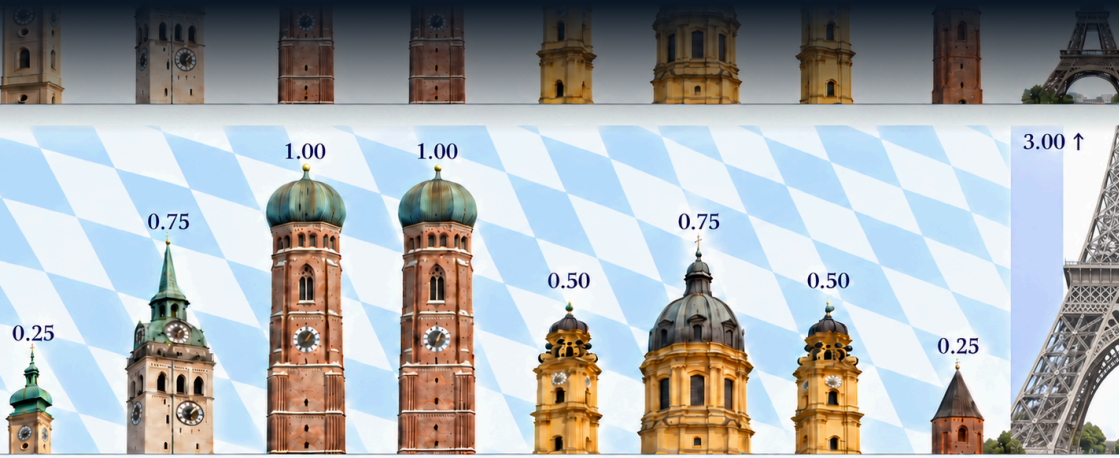
ClaimsEvidence

Evaluate SEP portfolios in minutes.

Explore portfolios and product landscapes.
In-depth essentiality and validity assessment.



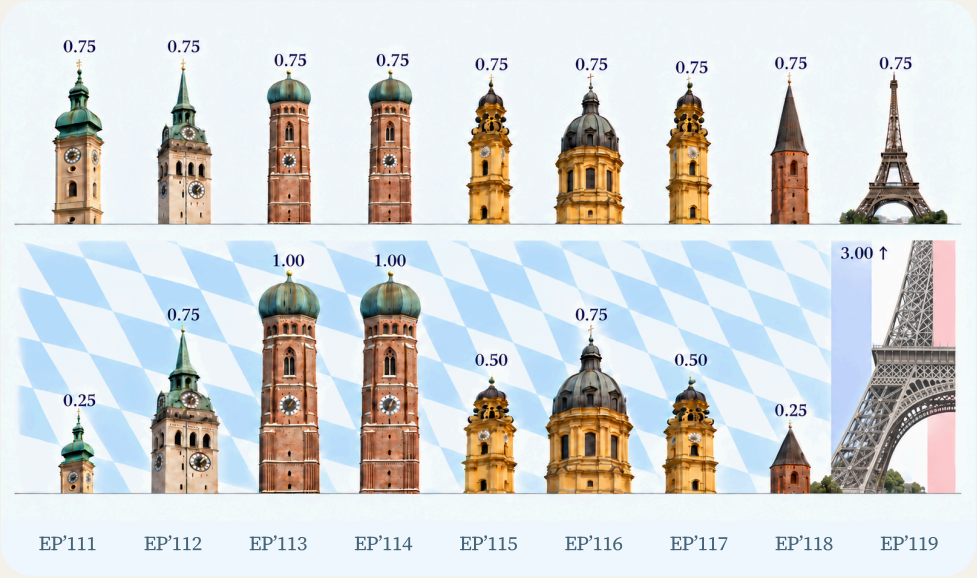
USE THE PLATFORM

Explore and assess portfolios with your team.

EVIDENCE AS A SERVICE

Commission expert-reviewed, litigation-grade reports.

Same skyline.
Different weights.



A. Discover

Find the right Munich skyline.

B. Product landscaping

Exclude the Eiffel Tower.

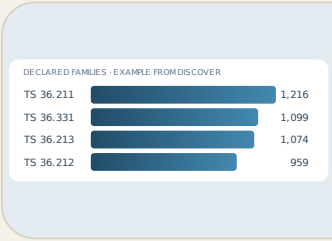
C. Essentiality & validity

Give each SEP its own weight.

ClaimsEvidence

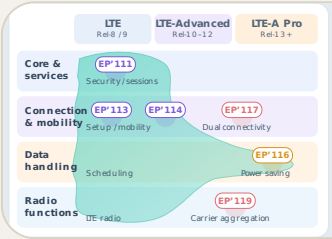
One platform.
Three stages.

Connect portfolio context, product scope and claim-level evidence.



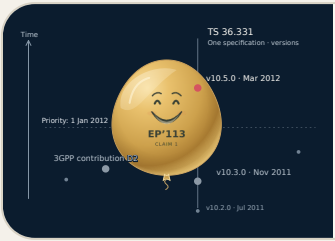
A. Discover

Explore portfolios, standards and specifications.



B. Product landscaping

Identify which SEPs may cover your product.



C. Essentiality & validity

Explore claim construction, mapping and squeeze scenarios.

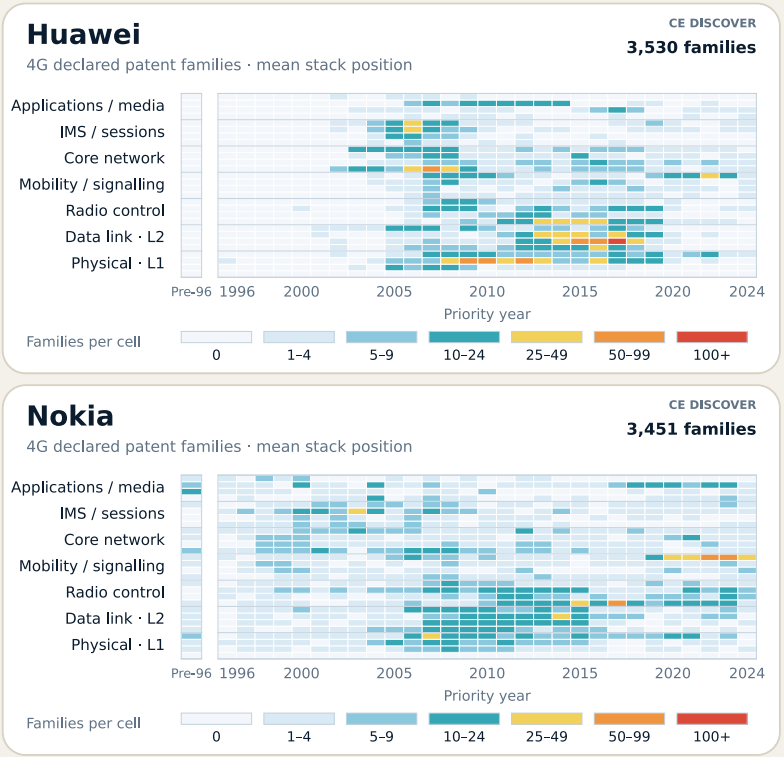
Prefer a finished report? With Evidence as a Service, our experts conduct and review the analysis for your licensing or litigation matter.

ClaimsEvidence

A. DISCOVER - EXPLORE PORTFOLIOS

Skip the filter maze. Just ask.

"Plot Huawei's declared 4G families by year and layer. Compare with Nokia."



4.0M+
Patent declaration records

428K+
PATSTAT enriched patent application records

134K+
Declared patent families across 180+ consolidated company groups

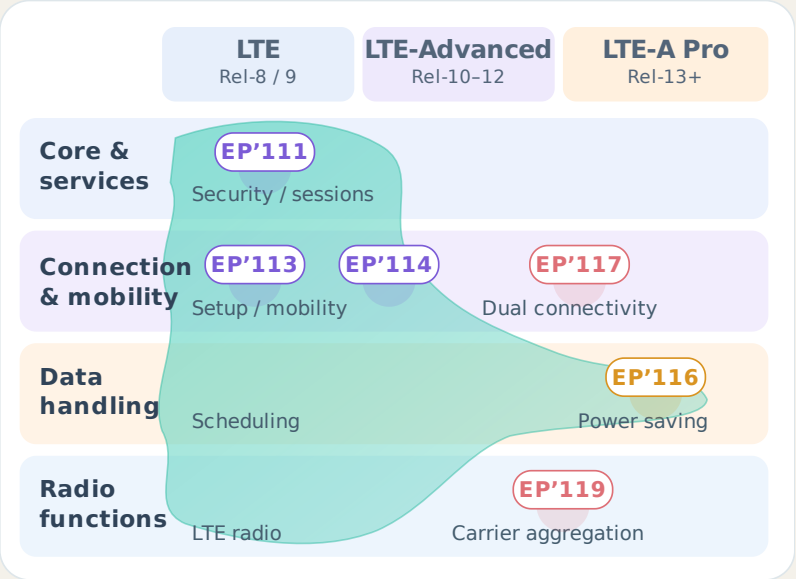
1,300
Distinct 3GPP specifications covered

October 2026 · continuously evolving & updated weekly
Expanding beyond cellular: video codecs, Ethernet & more.

B. PRODUCT LANDSCAPING

Which SEPs matter to this product?

Our experts and your in-house engineers map module and configuration evidence to the standard.



IoT device

Analyse module and configuration evidence. Compare the product footprint with the claims in a portfolio or pool.

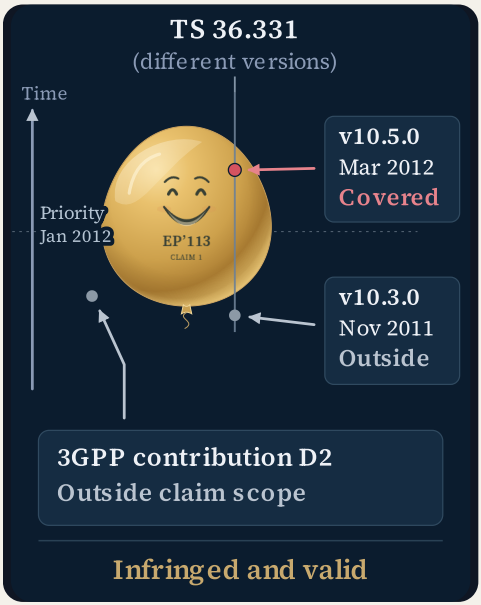
● Review claims ● Clarify capability ● Outside this scope

C. ESSENTIALITY & VALIDITY

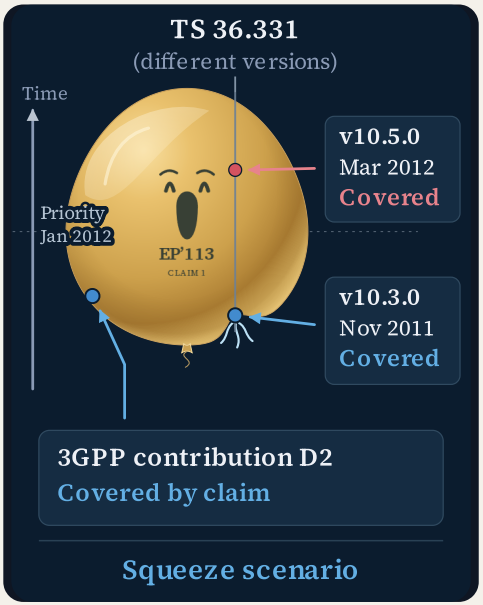
Build a litigation-grade patent case.

Essentiality and validity assessed under the same construction. Calibrate claim scope to your needs.

For the licensor



For the implementer



Got what it takes to be a star litigator?

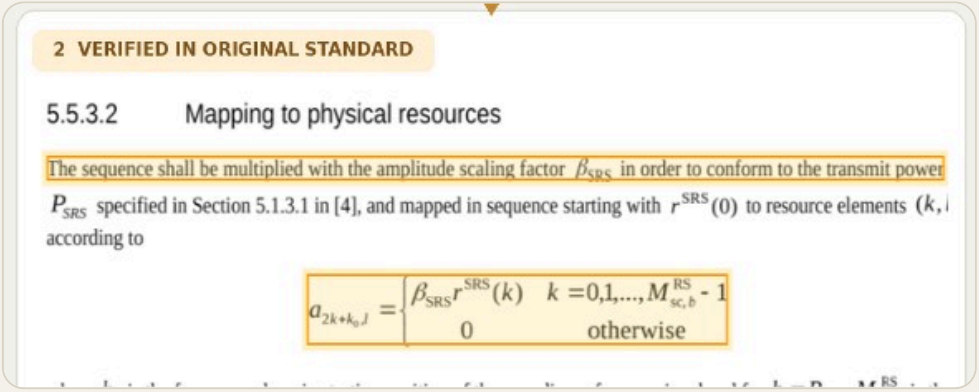
Play the game and find out.

challenge.claimsevidence.com

Evidence you can check at a glance.

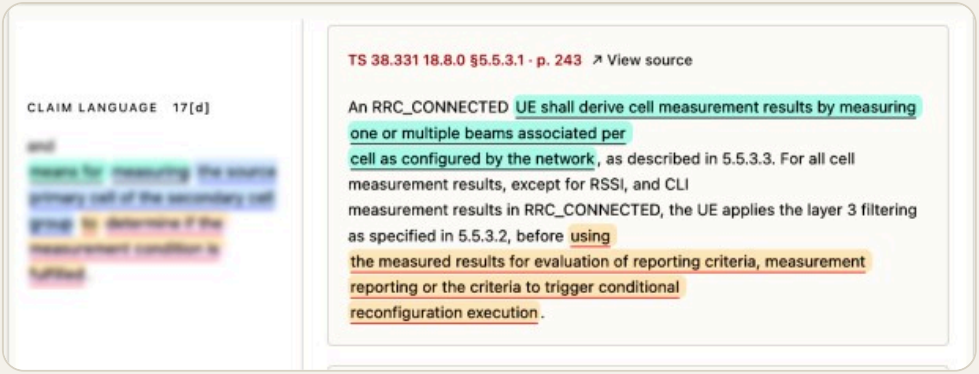
Original-source evidence

Formulas, tables and context travel with your exported claim charts.



Reasoning Links

Matching colours link claim language to cited passages. Every citation opens the original source.



ClaimsEvidence

Let's discuss your SEP matter.

Konstantinos Poulinakis

Co-Founder & CEO

Electrical and computer engineer with experience building AI systems at Deutsche Bank and Aleph Alpha. His background spans applied AI in regulated industries and published deep-learning research funded by the US Air Force Research Laboratory.

Christoph Hewel

Co-Founder & CPO

Patent attorney and UPC litigator focusing on SEP disputes. His background in electrical engineering and machine learning connects the technical analysis to the demands of licensing negotiations and litigation.
